Marigold—All Double

MARIGOLD—ALL DOUBLE

We have always had double marigolds, and when 50 percent came double we were satisfied. But now I can offer you seed that should, and doubtless will give you 100 percent double flowers. Rich dark golden yellow flowers of largest size, fully quilled and on long, strong stems. **Pkt., 100 seeds, 15c.**

Petunia—Star of California

HAINES NEW CALIFORNIA GIANTS ASTER

Another feature is their extended period of bloom, the plants remaining in flower much longer than any other Asters I know of. Flowers are unusually large and beautiful with petals tightly curled over the entire flower. My mixture contains many colors ranging from pure white to purple. **Pkt., 100 seeds, 10c; 1-8 oz., 45c; 1-2 oz., \$1.35; oz., \$2.60.**

The finest, most easily grown of any of the Blue Flowers which are so beautiful in the flower garden. This new flower is easily grown from seed, and comes into bloom quickly, and will continue to blossom all summer if the flowers are kept picked.

This is an annual but will come up the following spring from self sown seed. Perfectly double and of a dark blue color, and I cannot recommend it too highly. There are so few flowers that are wonderfully blue, that my new Blue Bird Flower, will fill a place in many gardens which have always needed this color. Those of my customers who grew this flower last summer were delighted with it. Can be used as a boutonniere, and being a full double flower, it takes very few to make a nice bouquet. CACTUS

**One of the Most Interesting Plants that Can Be Grown
Cactus Seed Germinates Very Slowly**

The cactus is one of the oddest appearing plants that have ever been cultivated. There are many different shapes and sizes, most of which blossom very easily. Much pleasure can be had from growing cactus from seed. Everyone is surprised at the odd appearance of a Cactus just sprouting; besides this is the only way to secure new and rare varieties, as no two plants are often alike. If you desire a fine collection sow the seed, start in a warm room in moist sand. The plants are easy to grow, as they endure the heat and dryness of the living room very well. **Haines Finest Mixed. HAINES BEAUTIFUL PETUNIAS

Single Flowered Bedding Varieties

There is nothing prettier than a bed of Petunias all of one color. They are especially adapted, not only for use on the lawn, but for porch boxes, hanging baskets and other similar places. I offer what I have found to be the most suitable.

HOWARD'S STAR. This is a beautiful old rose color with a well defined star-like stripe radiating from the throat to the edge. **Pkt., 300 seeds, 7c; 1-8 oz., 42c; 1-2 oz., \$1.25.**

NEW ROSY MORN. This Petunia is unequalled for porch boxes, hanging baskets, etc.; color is a very pretty soft carmine pink with white throat, also makes a fine display when grown in masses in the flower bed. **Pkt., 100 seeds, 8c; 1-8 oz., 46c; 1-2 oz., \$1.35.**

SNOWBALL. Dwarf, compact plant with pure, satiny white flowers of good size which literally cover the plant during the entire season. **Pkt., 300 seeds, 6c; 1-8 oz., 41c; 1-2 oz., \$1.25.**

HYBRIDA SINGLE.—This mixture is composed of many colors and is a very fine bedding variety. **Good Mixed. Pkt., 500 seeds, 5c; 1-8 oz., 24c; 1-2 oz., 75c; oz., \$1.20.**

NEW BALCONY QUEEN PETUNIAS

Large Flowers—Solid Colors—Startlingly Attractive

A splendid free-flowering type of Single Petunias, growing about 12 inches high, with flowers averaging 3 inches across; of special value for windows or porch boxes and vases, but equally effective in beds or borders. The Balcony Petunias may be depended upon to supply an unsurpassed floral effect until frost. While most of the Balcony Petunias have straight edges, my new Pride of Portland is beautifully fringed.

PRIDE OF PORTLAND—The Fringed Balcony Petunia. A decided sensation in Balcony Petunias, being exquisitely fringed. This variety comes from Oregon, and is of a beautiful rose-pink color. **Pkt., 100 seeds, 12c.**

BALCONY QUEEN (Rose).—Bright rose flowers with white throats. A profuse and continuous bloomer which grows quickly and luxuriantly. **Pkt., 100 seeds, 10c.**

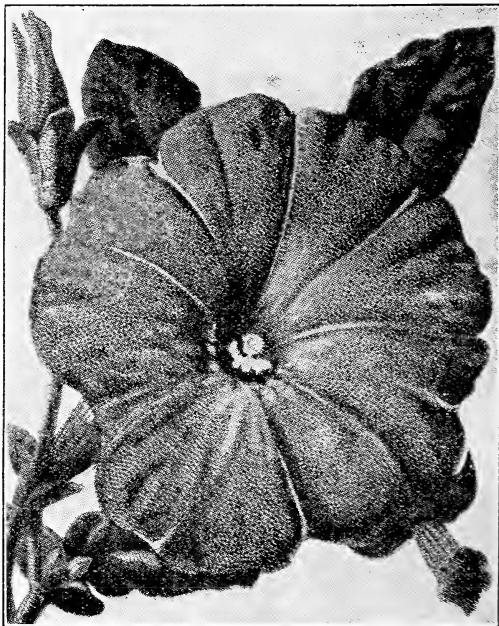

BALCONY QUEEN (Dark Red).—A clear bright scarlet red color. One of the finest. **Pkt., 100 seeds, 10c.**

New Balcony Petunia

HAINES BEAUTIFUL PETUNIAS GIANTS OF CALIFORNIA

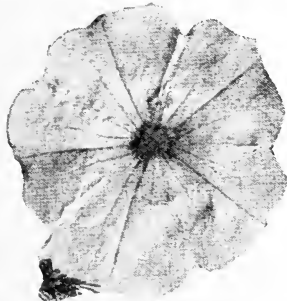

A California Variety of Great Beauty, Size and Luxuriance

The flowers are of immense size, often measuring 5 to 6 inches across. The variety of colors, markings, veinings and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. With the exception of Haines Invincible Petunia, this is the finest Petunia ever grown. Equally desirable in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. **Pkt., 150 seeds, 12c.**

STAR OF CALIFORNIA

Velvety Purple Shaded Crimson, with a Star-Shaped White Blotch

This is an outstanding variety of the Balcony type, but with the size and beauty of the California Giants. For window boxes, hanging baskets, and vases, this is what you have been waiting for. The stems are almost completely covered with rich purplish flowers, which are glorified with a sheen of crimson; but the crowning feature is the pure white star in the form of a blotch in the throat of each blossom. The branches are extra long, and hang over the edge of the box or vase, presenting a beautiful appearance. **Pkt., 150 seeds, 15c.**

Rose of Heaven

ROSE OF HEAVEN

Rich Brilliant Rose Color with an Inconspicuous White Throat

A clear rosy pink flower of good size and very beautiful. The throat is nearly the same color as the petals, very few having the white throats so common in most pink Petunias. While not as large a flower as my wonderful Balcony Queen Petunias shown on page 30, they are much larger than the Rosy Morn, which we have all known and grown for many years. A bed of Rose of Heaven Petunias is unusually attractive, and as they remain in bloom all summer, gives a delightful touch of color to a yard that might otherwise be dull and dreary. **Pkt., 100 seeds, 10c; 1-8 oz., 52c.**

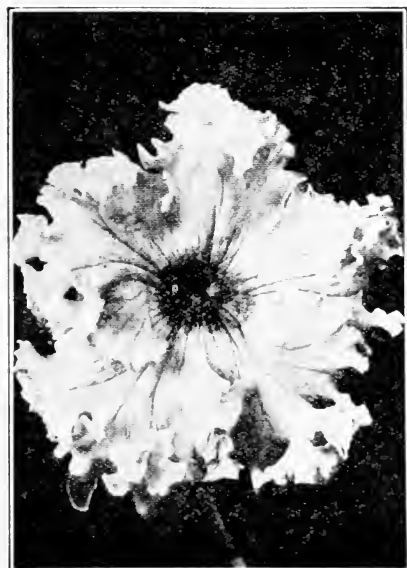

Petunia—Giants of California

FLUFFY RUFFLES

Beautiful Colors—Heavily Frilled and Ruffled—Large Size—Easy to Grow—Sure to Bloom

The originators of this wonderful strain of Petunias claim that the flowers will average 4 to 6 inches in diameter, but I am content in claiming a size of about 3 inches. However, the flowers are so heavily frilled that a blossom 3 inches in diameter is often 20 inches or more in circumference. Fluffy Ruffles commences to bloom very early, and continues in flower all through the summer until frosts kill the plant to the ground. Easily cultivated. All you need is a good soil and sunny location. **Pkt., 200 seeds, 12c.**

HAINES BEAUTIFUL PETUNIAS

FANCY FRINGED DOUBLE

My Double Petunias Have Made Me More Friends Than Any Other Flower I Grow

A mixture of the best large flowering and fringed double Petunias. It embraces a wide range of colors and shows finer combinations than we have heretofore found in any double Petunias including delicate mauve, porcelain blue, white, garnet and velvet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other. **Pkt., 60 seeds, 14c.**

NEW GOLDEN ROSE

Brilliant Orange Rose Color, with a Lighter Shade of Yellow in the Throat

This unusual color surely deserves a place with the finest novelties, as it is entirely different from any I have ever grown or seen. The orange rose color is the same throughout the flower, except that the throat is a lighter shade of yellow. In size, it is about the same as the other out of doors bedding varieties, with which we are all familiar. Its color is its greatest charm, and I can confidently recommend it to all. **Pkt., 150 seeds, 12c.**

NEW TRAILING PETUNIA

Creeps On the Ground—Fine for Rockeries and Similar Places

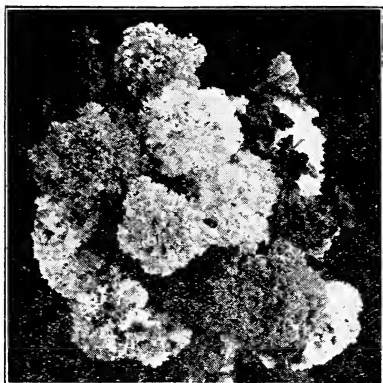

Everyone who grows Petunias should give this new variety a trial. A charming little Petunia with many long slender branches creeping out over the ground, covering a space 3 feet or more in diameter. The colors include a crimson with violet throat, quite fragrant and borne by the hundred. I know of no other Petunia which will produce one-half so many flowers as this. Splendid for hanging pots or baskets as well as for the garden. It is a very showy and attractive novelty. **Pkt., 100 seeds, 8c; 1-8 oz., 30c; 1-2 oz., 90c.**

NEW DWARF GIANTS of CALIFORNIA Mammoth Flowers and Beautiful Colors, with Throats Veined and Marked in Every Conceivable Manner. All are Heavily Frilled and Ruffled

Here we have the same mammoth flowers and marvelous colors, we have grown to like so well in the original of this type; this being a dwarf strain of the well known Giants of California. Flowers are of the largest size, heavily frilled and ruffled, and are well opened showing off the beautifully veined and marbled throats to perfection. The plants are so very dwarf that they may also be grown as pot plants with the best of results. For porch boxes and for bedding my Dwarf Giants of California are unequalled. **Pkt., 150 seeds, 15c.**

Four or five weeks earlier than the regular Spencers, and if the flowers are kept picked will bloom for 3 or 4 months.

These new varieties are very vigorous growers and continuous bloomers. They come into flower 5 to 6 weeks earlier than the other Spencers, and if grown out of doors and the flowers kept picked, will bloom all summer. The flowers are of immense size, measuring nearly 2½ inches in diameter, beautifully waved and are carried on stiff stems of great length.

HAINES CALIFORNIA GIANTS ZINNIAS

Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. I have grown flowers fully 5 inches in diameter. Plants are of robust habit, attaining a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear numerous semi-globular mostly very double flowers on long, strong stems, all of the largest size, making them of great value in large beds, borders, etc., grown under favorable conditions they remain in bloom from early summer to late autumn. I offer the colors separately, as well as a splendid mixture of many colors.

LEMON QUEEN. This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

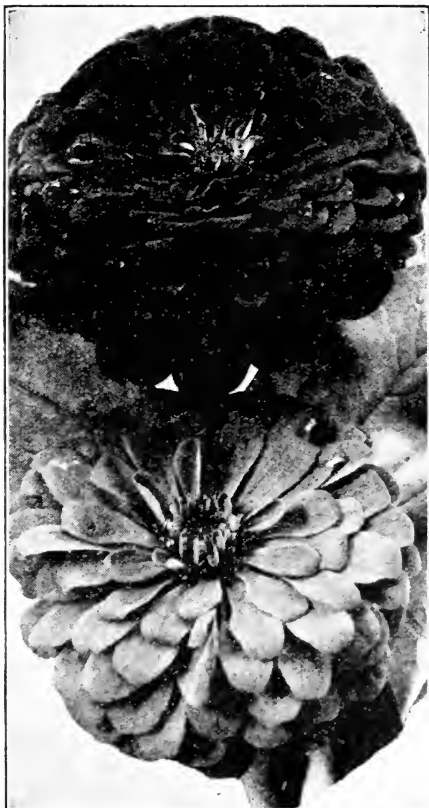

ORANGE KING. This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

PURITY. Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

ROSE QUEEN. This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

COLLECTION. One packet each of the four colors described above for only 35c.

MIXED. The above four colors mixed in equal proportion make a splendid show of bright colors. **Pkt., 50 seeds, 8c; 1-8 oz., 34c; 1-2 oz., \$1.00.**

**THREE UNUSUAL ZINNIAS FOR 1932****One Packet of each for only 25 cents****Mexican or New Star Zinnias****HAINES WONDERFUL NEW ZINNIAS****Each are Distinct Types and Should be in Every Garden**

There is much satisfaction in a bed of Zinnias with their large flowers of bright colors, and when nearly every other flower has been killed by frost this plant is still in full bloom. Few flowers are more easily grown or bloom more abundantly. Sow the seed in open ground. When the young plants are 1 to 2 inches high, thin to 6 inches apart.

**VICTORY
QUILLED OR
CACTUS
FLOWERED****Attractive Petals so Tightly Curled as to Resemble Quills**

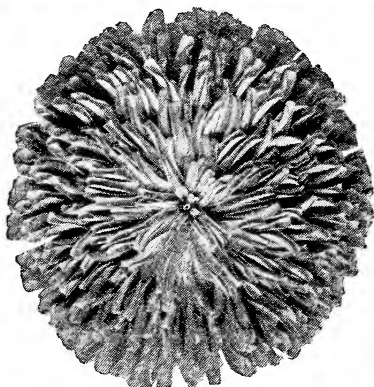

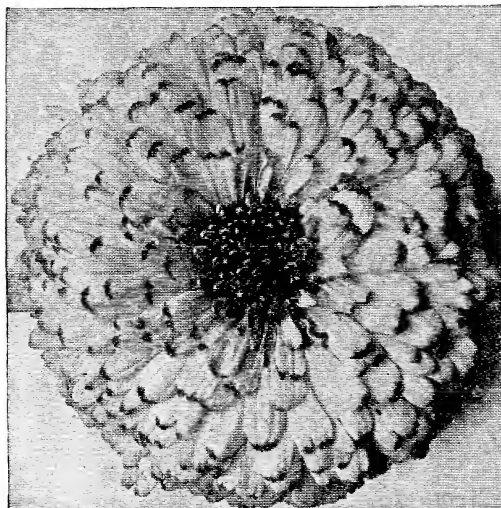

It is distinct from all other Zinnias by the shape of its petals which are tubular at the base and expand toward the tip, displaying a rich variety of color. On the reverse side of the petals the color runs into a softer tint, making a beautiful combination. **All colors mixed.** Pkt., 50 seeds, 10c; 1-8 oz., 30c; 1-2 oz., 90c.

MEXICAN OR NEW STAR**An Unusual Variety of Single Star Shape Flower**

This new and beautiful flower is the only Zinnia ever grown which comes absolutely single and when open shows the true star shape. It is peculiar in its construction; not double, not single—as the word is usually interpreted—nor yet could it be called crested. It must be seen to be appreciated. Flowers are of good size, usually 2 inches in diameter and of good intense colors. Nearly every color known is there from crimson to white, beside color combinations. Petals are rich and velvety, and appear almost artificial in their perfection. Plants are dwarf, and hold the flower stem erect, presenting a beautiful appearance. **Pkt., 100 seeds, 8c; 1-8 oz., 24c; 1-2 oz., 75c.**

NEW PICOTEE**Every Petal Beautifully Tipped**

A remarkable and beautiful new type of Zinnias developed in California. The flowers are always of the largest size, measuring 4 to 6 inches in diameter. CRIMSON (*Gerberi*)—Also called the Transvaal Daisy. One of the rarest of the Daisies, and one which can be grown out of doors in the summer or in pots in the house during the winter. The flower stems are 2 feet long, and are very graceful, bearing a large daisy-like blossom, which is 3 to 4 inches across. The flower petals have a velvety texture which, added to the rare color and size, make it most desirable. There are many new shades in this rare hybrid mixture, the beautiful crimson in particular. **Pkt., 15 seeds, 10c.**

POWDER PUFF—A new rose-pink variety, and the largest of this color that I grow. The head is so unusually solid and fine as to never show any center, and so of course very little seed can be found. The color (rose-pink) lasts well, either on the plant, or in water. **Pkt., 50 seeds, 12c.**

Beautiful New Varieties Which Should Be In Every Garden

Giant Snapdragons have become immensely popular in the last few years. Spring sown seed outdoors produces flowering plants in July, remaining in bloom until frost. For earlier flowering, start indoors and transplant when weather is suitable. Their ease of culture, independence of heat and drought, continuous blooming qualities, and their magnificent, bright colors should entitle these Snapdragons to a place in every garden.

HAINES FANCY GERANIUMS

THE PANSY GERANIUM

A Grand House Plant of easiest growth, dwarf habit, and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary — light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of coloring. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. **Strong, young plants, 30c each; 3 for 85c, postpaid.**

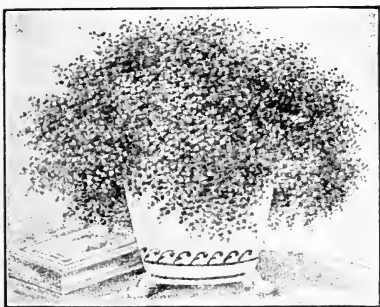

Pansy Geranium

LADY WASHINGTON GERANIUMS OR PELARGONIUMS

Always in Bloom, Summer, Fall or Winter

A valuable class of house and garden plant related to the Geraniums, resembling them closely in character, habit and treatment. Pelargoniums revel in hot sunlight, withstanding temperature and glare that would shrivel other flowers. All they ask is plenty of water. They do not grow as dense or compact as Geraniums, consequently it is advisable to pinch back the long shoots once or twice prior to their blooming season in April, thus ensuring a nicely rounded, bushy shape. Colors are variegated, ranging from crimson with dark blotch, to pure white spotted, while many of them are heavily ruffled. **30c each; 3 for 85c, postpaid.**

**RESURRECTION PLANT****Most Unique Novelty. A Marvel of Plant Life.**

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water, for in a short time there is a great, loose, expanded rosette of fine fern-like leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked.

Plant Shipments I always recommend having plants sent by Express, when there is an Express Office near, as I can usually send some-
what larger plants, and do not have to wash the soil off the roots (as in the case when sent by Mail).

Kindly write your list of plants, bulbs and roots all together (not mixed **up** with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. *I do not ship plants to Canada and foreign countries.*

Please Notice—Owing to Quarantine Restrictions we Cannot Ship Fruits, Shrubs or Plants to Arkansas; we Cannot Ship Oranges or Lemons to California, Florida, Mississippi or Texas.

Please order nothing but plants and bulbs on this sheet
